CAMPOS DENOUNCED.

Spaniards Willing to Lynch Him if He Does Not Resign.

New York, January 16.—A special to the Herald from Key West, Fla., says: According to private advices from Havana, there was great excitement on the exchange yesterday (Wednesday), and much seditious talk was indulged in. Several colonels and officers of volunteers who were present made speeches against Captain General Campos, and a general protest was expressed against his military inactivity and over humane policy. One major of volunteers proposed that Campos be either forced to resign or be lynched, and the speech was received with cheers from various Spanish merchants.

The majority of representatives of Spanish business houses present signed a petition to close the exchange and many favored closing the stores. A delegation from the volunteer corps of officers was named to wait upon Campos and insist that Panado be called and given full military command, and that Campos either radically change his politics or resign.

The Spanish sentiment against him is increasing hourly and trouble is feared. Several foreign vessels in the port, by direction of their consignees, have suspended the discharge of their cargo, awaiting the outcome of the affair.

Lieutenant General Marin has been hurriedly called from Matanzas and is now in consultation with the captain general. Campos depends upon the regular forces and upon the fleet to support him in the event of trouble, but at this moment there are few troops in Havana, most of the columns being out after Gomez and Maceo, and fortunately all the warships are away, cruising up and down the coast.

MEXICAN MATTERS.

Mexico City, Jan. 15.—President Diaz has appointed today as Postmaster General Ignacio Gutierrez, 58 years old, an engineer by profession, in place of Cochiron, summarily removed. Experts are at work on the postoffice books and irregularities are expected to be disclosed. Montiel, Postmaster of the City of Mexico, and other high postoffice officials are under surveillance. More removals are expected, among them all traveling inspectors of the postoffice department.

President Diaz has granted leave of absence to Colonel George M. Green of the army,

appointed commissioner general for Mexico to the British Empire Exposition and World's Fair to open May 24th at Montreal. Colonel Green represented Mexico at the Columbian Exposition at Chicago and the Midwinter Exposition at California. Many states will be represented at the Canadian fair.

One of the largest cotton mills here is sharing in the general prosperity of Mexican manufacturing interests and will soon increase its capital.

The City government has asked the Gas and Electric Light company of this city, an English corporation, to name its price on its entire plant with a view to taking the city lighting under municipal control. The company is obliged by its contract to sell to the city on the expiration of the present arrangement which terminate next year.

PANIC IN HAVANA.

An Outbreak in Havana Against the Policy of Campos.

Havana, Jan. 16.—The politicians are insisting upon making themselves heard regarding the present unsatisfactory state of affairs in the island. The first published utterance on the subject was the editorial in the Diario de la Marina yesterday entitled "An Unbearable Situation." The article has borne sensational fruit today and the expression of the public mind on the present method of conducting affairs in Cuba refuses longer to be suppressed.

The Union Constitutional, the reformist organ, today announced that they declined to longer support Martinez Campos in his policy for the conduct of the campaign against the insurgents.

There was a great manifestation of the people's sentiments today and all spoke their minds quite freely. The outbreak has caused a great sensation and a feeling of intense excitement pervades the city.

The organ of the autonomists expresses its adherence of the views expressed by representatives of other political parties and Martinez Campos is apparently without political friends or support in Cuba.

Today's outbreak is not of a sort that can be silenced and there is every indication that it puts an end to Martinez Campos' powers for usefulness to the Spanish cause.

It is believed that he has summoned Generals Pando and Marin to relieve him of the direction of affairs.

Stocks went down in Havana today and there is feeling of panic.

THE BIGGEST LIAR.

The liar which the editor hates the worst of all, is the man who, when dunned for a year's subscription, says he only received two or three copies during the year, and refuses to pay.—Clarkeville Graphic.

Next to it not above this one, the editor hates a liar who takes the paper for six or seven years and when finally cornered for a settlement says he never ordered the paper at all.—Pike Co. Herald.

But the worst liar of the outfit is the man who takes the paper for years and then moves away without paying or saying anything about it, and yet says he is an honest man.—Elsberry Advance.

And there are others. For instance: The man who is two or three years behind on his paper, and pays up one year's subscription, and a year later, when dunned, says he paid up last year and doesn't owe but one year.—Arcola Times.

Brethren, you all fall short on the truth. The biggest liar of the lot is the editor who publishes the obituary of the aforesaid liars and intimates that they have gone to heaven.—Plymouth Independent.

Wrong again, brother! The meanest man and the biggest liar is the man who always dead heads your paper, and when you solicit a subscription says, "I am taking more papers than I can read."—The
